

NEW! from Apogee Books

The Pocket Space Guide® Series

The first four titles of the new series beautifully displayed for your customers in our FREE new POP display. (6 each of 4 titles)
 ISBN 1894959477

An exciting new series from Apogee Books!

The Pocket Space Guide® concept is based around the idea of providing the space aficionado with a series of books covering the entire gamut of space exploration in a user friendly format. A standard paperback book at a reasonable price.

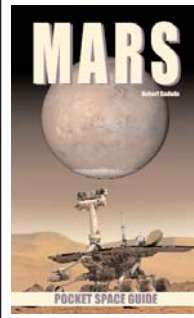

Ideal for gifts for kids who are interested in space. For space enthusiasts, or as a gift for that person in your family who is involved in astronautics and aviation. Compiled with the cooperation of NASA from the extensive files of Apogee Books!

Each title will be 96 pages. 48 pages of color 48 pages b&w. 7" by 4½". All glossy. Each book will be packed with relevant pictures and data for each subject, such as crew photographs for each mission, crew patches, flight statistics such as time in space, distance traveled, mission objectives and a host of the best pictures taken during each program/mission. Retail price is \$9.95 US. The POP stand as shown here comes complete with 6 of each title totalling US\$238.80 at retail price in a less than 1 sq ft footprint. *Ask your distributor for details.*

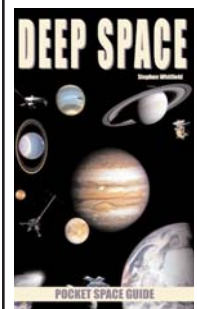

"Apollo 11: First Men on the Moon." Robert Godwin edited this "pocket space guide" that is loaded with an abridged account of Armstrong and Buzz Aldrin's moon landing as well as neat trivia, photographs and diagrams. It's an easy, quick read worthy of a spot on the reference shelf.
