

Book review in Fall 2006 Issue of

# QUEST.....

THE HISTORY OF SPACEFLIGHT QUARTERLY

## Go for Launch: An Illustrated History of Cape Canaveral

by Joel W. Powell with Art LeBrun

ISBN: 1-894959-43-4

Price: \$29.95 Trade Paper

Publisher: Apogee Books, 2006

Pages: 320 with 728 photos, 64 pages color

From the first Bumper V-2 launch in 1950 to the Atlas V vehicles of today, more than 55 years of Cape Canaveral history is captured in this exhaustive collection of photographs celebrating the development and evolution of one of space exploration's most famous and significant facilities. Detailed maps and historical aerial photographs reveal the famous launch complexes and basic infrastructure of this storied base station, while missile and rocket tests are featured in never-before-seen images with descriptive captions. The bustling daily activity of thousands of employees at the Cape is captured on film, providing a behind-the-scenes look at rocket launches. Information on the current generation of space launch vehicles, trivia on various rockets and satellites that have flown out of Cape Canaveral, and amusing anecdotes are also included. Joel W. Powell is a department editor for *Quest* magazine and a freelance correspondent for *Spaceflight* magazine who has witnessed more than two dozen launches from Cape Canaveral.
